Ala'a is a Partner in Deloitte Tax's Transaction & Integration Services Practice. He has 17 years of tax consulting experience advising and managing complex transaction engagements from the onset of the diligence phase, through structuring and integration. His experiences include technical tax planning for consolidated group transactions and attribute maximization, transaction implementation, and tax department integration.

In addition, Ala'a advises troubled businesses, in and out of bankruptcy proceedings, on a variety of structures to retain valuable tax attributes (e.g., NOLs, tax credits, etc.), maximizing value and flexibility for all parties involved.

A few notable engagements include:

- Tax restructuring advisor for a \$800 million upstream oil and gas producer
- Tax restructuring advisor for a \$500 million oil and gas services provider
- Tax structuring advisor for a \$4 billion waste disposal transaction
- Tax structuring advisor for a \$2 billion cross-border oil and gas pipeline transaction
